Hill International (NYSE:HIL) is the global leader in managing construction risk providing project management, construction claims and consulting services to clients in the hospital and healthcare industry. Hill is consistently ranked among the top construction management firms by Engineering News-Record (ENR) magazine.

Hill has expertise in managing some of the most complex hospital and healthcare projects in the world. Hill has managed the design and construction of the largest comprehensive medical facility in the Middle East, Hamad Medical City. It incorporates three specialized hospitals including a 320-bed hospital for children, a 220-bed hospital for bone diseases, a 350-bed hospital for medical rehabilitation, an addition to a dialysis unit, a minor surgery unit and a 300-bed nursing home for the aged. The complex will also include the headquarters building of the Qatar Ministry of Public Health, 16 apartment blocks for the accommodation of nurses and a social and sports club for the staff of the medical sector.

As a pioneer of construction disputes resolution on some of the world’s largest hospital & healthcare facilities, Hill has earned a reputation as a premier construction claims consultant. Our professionals are top executives in their respective fields with world renowned reputations.
We have developed a project management approach based on extensive claims experience, which gives us a unique and in-depth understanding of what can go wrong on projects. Our professional staff includes project/construction managers, schedulers, inspectors, value engineers, cost engineers, structural engineers, process engineers, project controls and claims experts.
