An architect and animal lover who helped raise more than \$2 million for an animal care center. A structural engineer who is exploring advanced designs for mass timber buildings. A construction management expert who mentors at-risk African-American girls. An MEP engineer who co-founded a cycling event that raises money to fight human trafficking. BD+C's 40 Under 40 Class of 2018 winners show that there's more to the AEC profession than designing and building great places for people. Indeed, these rising stars are making an impact in business, philanthropy, and in their communities.

Meet the BD+C 40 Under 40 Class of 2018!
