

John Black

Vice President, Advisory

Key Focus: Energy

John Black brings over 20 years of experience delivering complex infrastructure projects and programs across the energy and utilities sectors. He specializes in multiyear- multibillion dollar mission critical infrastructure delivery.

John's career spans project & program director roles, as well as field O&M and engineering roles on both the owner and contractor sides. His unique combination expertise enables him to deliver capital improvements with operational insight. He has led the delivery of numerous multi-year, multi-billion programs, giving him extensive expertise in overcoming challenges organizations face in meeting their capital infrastructure delivery goals.
