

Matthew Bezanson

Vice President, Advisory

Key Focus: Capital Programs & Transactional Diligence

Matt Bezanson brings more than 20 years of experience delivering complex capital programs across the transportation, facilities, and energy sectors. He specializes in structuring and optimizing financial solutions for major capital projects, programs, and transactions.

Matt's career spans roles as an infrastructure investor, management consultant, and civil engineer, a unique combination that enables him to pair deep technical understanding with strong financial and strategic insight. He has supported multiple multibillion dollar programs, giving him the perspective and rigor required to guide clients through their most challenging initiatives with clarity and confidence.
